

# Revenue Optimization

*Built to collect*

The majority of all physicians claim that their greatest desire is to be able to care for their patients and grow their practice without all the administrative headaches that come with running a business. edgeMED's all encompassing billing solution was designed to overcome the complexities associated with the health care revenue reimbursement cycle. Our attention to detail and passion to deliver unparalleled service are the building blocks of our billing solution. We partner cutting edge technology with teams of specialists to deliver unrivaled collection rates in the industry. Our highly knowledgeable and experienced staff works seamlessly with your practice to increase your overall collections while reducing the time frame in which you get paid.

## Maximize Productivity & Improve Financial Performance

### INCREASE COLLECTIONS

Electronically delivering claims, continuously reviewing payments received from individual insurance companies and identifying any underpayments or discrepancies, allows us to deliver unrivaled collection rates.

### SIMPLIFY YOUR LIFE

edgeMED alleviates administrative inefficiencies by providing a dedicated account manager to be a one stop solution for all of your billing needs. No more time wasted trying to track down the individual working on your account at any given time. Simply call and speak with your dedicated account manager to answer any question you may have.

### HEALTHY LIVING

The majority of physicians claim that their greatest desire is to be able to care for their patients and grow their practice without all the administrative headaches that come with running a business. Our experienced team makes the transition of launching our service seamless. We take the time to visit your office and understand your existing operational procedures so that we can cater our methods to better suit your needs and deliver you the positive results you deserve.

### FREE SOFTWARE

Our dynamic, robust and user-friendly Practice Management software provides the tools to effectively and efficiently manage your medical practice. We have maintained our status as an industry leader by developing software that is able to change with the times and adjust to what physicians want and need. And the best part of this service is that we provide this to you for free! No investment is required for our software licenses or training. There are never any user fees or upgrade fees. Only a PC utilizing the Windows XP, Vista or Windows 7 operating system and a standard, high-speed Internet connection are required.
